Let's All Celebrate Dominion Day At Home

Local Happenings

Ross Mny and Angus Wood of Magrath were Raymond visitors Monday.

Frank Leavitt is still favoring the ankle that he turned in the ball game last Wednesday.

Athol Cooper who teaches at the La Prairie School south of Magrath spent Saturday and Sunday here.

Glen Tollestrup has not been able to work since he hurt his ankle at the ball game on Wednesday last.

D. A. Bennett was in Red Deer last week visiting his son Delvin and Mr. and Mrs. D. C. Peterson and family.

Mr. and Mrs. C. R. Wing and family returned on Monday from their trip to Utah.

Mr. and Mrs. Reg Choper and Mrs. Annie Thompson spent Sunday in Cardston visiting relatives.

The juryman who spent part of last week in Lethbridge, returned again Tuesday morning to complete their work.

Donald B. MacMillan is away on his 12th trip to the frozen north and this time will explore parts of Baffin Land.

The town road crew are surely building some fine grades. It is to be hoped the drainage will be good enough to keep them in good shape.

The roads between here and Magrath should be better when the two road crews get finished with them. They are surely anything but good now.

Miss Lolita Quinton teacher of the St Mary's School west of Magrath spent Friday evening with Mr. and Mrs. S. I. May and accompanied them to Cardston Saturday afternoon.

With the work going on at Dr. Leech's residence the new Raymond Motors Garage and the Second Ward Chapel, Raymond is enjoying real building activity.

Keep your foot off the gas on the gravelled roads out of Cardston. A speed cop is patrolling them now and you may hear the Magistrate say \$15.00 and costs, or whatever the fine is, if you try to burn up the gravel.

The Lanark Freehold Oil and Coal Co. are opening a 1,000 ton coal mine about eight miles northwest of Lethbridge and will spend \$500,000 on development. They also have oil leases on the coal land and other nearby acreage.

The school at Pike Lake, Sask., has been closed with examination incomplete following a strike among the pupils when the English flag was torn down and an American flag torn from the Book of Knowledge posted on the wall. Cries of down with English were uttered during the excitement and one lad about 12 lowered his head and butted the teacher three times.

A. R. Watmough, Educational representative of the "Wear Ever" Alumina Co. Arrived here on a visit during the week end to conduct a series of demonstrations and health talks on the "New Method" of cooking. On Tuesday afternoon he gave a very interesting and instructive lecture on "Food and its relation to health" before the members of the 1st ward Relief Society in the Stake House.

Miss Athena Dejen suffered several severe cuts on her face, and a number of bruises when the car in which she was riding with her brother, ran into an obstruction which was hidden by the tall grass, and threw her into the windshield. Dr. Leech attended her, and she is at present at Mrs. Boyson's. The little child of Mr. and Mrs. Wm Stewart is at the home of Mrs. M. W. Boyson suffering with inflammatory rheumatism.

Get Your License

The application forms for the Automobile Drivers License are now obtained at the local Post Office or from Constable Ellis, A. P. P.

The public would be well advised to make haste and get these blanks filled in and mailed to the Deputy Provincial Secretary, Edmonton.

It is now too late to get the card by the 1st of July, and as a safeguard it would be a good idea to get the Postmaster to endorse on the back of the Postal Note slip to the effect that the license has been applied for and carry this stub till you get your card. Then KEEP YOUR CARD WITH YOU.

Order of Parade

Band.
Color Guard.—Ex Service men.
Empire Nations.—The ten nations will be represented in costume by 100 school children.

Canada and the Provinces.
Represented by young ladies on horse back.

Raymond City Float.
Tricycle and Bicycle Section.
Prizes to be given for the best decorated.

Organization and Schools.
Agriculture College.
High School.
Institute.
U. F. W. A.
Mutual.
Primary.
The Fire Department.
Decorated Cars.
Tractors.

Beet Farmers Urged To Cultivate

Farmers, get busy with your beet cultivator. Because of the extremely wet season, particularly in the Raymond district, as the soil is very hard and if the cultivator is not used persistently and extensively in this locality, beets will make a very poor stand.

Mr. Taylor informs us that beets here are far behind the other districts over which he has charge, and it is largely due to a lack of cultivation. Take the tip and get busy while there is time to make a good crop.

TALKING, SOUND are FEATURED IN CARNATION KID

Talking and sound effects feature Douglas MacLean's latest starring picture entitled "The Carnation Kid" produced by the Paramount-Christie Corporation, which will be presented at the Capitol theatre next Monday.

While there is not one 100 per cent dialogue running throughout every scene yet in every sequence the action is featured by talking. Instead of making the film an all-talking one, Christie officials wished to emphasize the opportunities afforded by the story for typical movie action, and for the first time local audiences hear as well as see the customary four or five locations as heretofore has been the case. "The Carnation Kid" features forty-three different sets and locations during the running of the film.

The picture is essentially one to provoke mirth, but MacLean's return to the screen is marked by his appearance in a story that has a melodramatic background. Mistaken identity is the theme of the story with MacLean's being mistaken for a gangster and the sometimes serious situations he finds himself in as a result of it. He is supported by such well known stars as Frances Lee, Lorraine Eddy, William B. Davidson and Francis McDonald.

Constable Ellis A. P. P. of Magrath, spent Tuesday afternoon and evening in Raymond.

Are You Ready for the Big Celebration

Dominion Day of 1929, should be one of the bright spots in the memory calendar of Raymond and district. If we are favored with good weather and the plans of the committee can be realized.

"From Sunrise to Midnight and something doing every minute," is the slogan of the committee.

The Parade Committee have been working overtime and have a splendid lineup planned, and the following have all expressed their willingness to add a decorated car or tractor to the line up that was mentioned last week.

Ralph Brothers; J. H. Ford Chrysler; Rayo Wolf; C. W. Asplund; C. C. Watson; Lee Brewerton; King Motors; Garden City Oil; Dr. H. H. Heil; Wilford Meldrum; O. S. Longman; T. O. King; L. L. Pack; P. W. Cope; C. S. F. Raymond Fire Dept.; S. B. Card B. American Oil Co; Raymond Merc. Tractor; Clarence Elder Tractor; Massey Harris Tractor; F. Spackman Tractor; H. A. Christie; Wm. Clemis; Mrs. O. R. Knight; Frank Holt; Julius Nemedy; Wm. Meeks; C. R. Wing; W. H. Zobel; T. Geo. Wood and D. Watson.

Ex service men are also asked to join the parade wearing full decorations. The residents are also asked to

co-operate by decorating their homes in flags and patriotic colors, and giving a real holiday air to the town for this day.

Then after the Mammoth Parade, the Patriotic Program in the Opera House will be the centre of attraction for about an hour, and then the Intermittent for noon.

AFTER NOON SPORTS
In the afternoon everyone will be at the fair grounds. There will be races for everybody from 5 years old and up, with cash prizes for each and every event. Horse races for boys and men. Novelty Races, performing clowns, and everything.

A baseball game on the new diamond at the Fair Grounds where you can see it all from the Grandstand. All this for 50c for those over 16 years of age, and under that age free. There will be no charge for cars. Where could you get so much for so little. And then at night, don't forget the Big Ball in the Opera House. We don't need to say more about this, as you are always sure of a good time on this splendid floor; the best in Southern Alberta.

Come one come all Raymond invites you to share the day with her.

visiting SUNNY ALBERTA'S CRIPPLED CHILDREN

Rows of little white cots out of doors in the sunshine, wheelchairs in the shade, big boys and small girls on crutches and little toddlers and smaller crawlers, such was the sight that met the view of Red Cross visitors on a June afternoon in Edmonton as they gazed at the crippled children who are patients in the Junior Red Cross unit of the University Hospital.

It was of special interest to observe the nationality of the little folk. A little form sat up in bed with all the dignity and immobility of a bronze Buddha and stared calmly at the strangers. It was little Cherry Blossom from Japan, whose mother is in the T. B. Sanatorium and whose father travels in from his work in the country to visit his little three year old girl. Daily, getting better. Miss Japan has made great strides since entering the Red Cross ward.

From the solemn smile of her almond eyes we turned to the dark skinned southerner with woolly curls closely cropped leaning over his cot to point his toy gun at some tiny toddlers. Smiling from ear to ear and revealing glistening pearls of teeth Sambo assured us he is "Fine, Thank you."

On then to a little Scandinavian maiden whose only language is her gentility, sunny smile, for not a word of English can she speak. Nurses teach her how to say "Thank you and Please" and she is learning the Canadian greeting "Hello."

Round one bed is a group of older girls all of whom are taking lessons

Raymond Takes One From Spring Coulee

Raymond won a 10-9 decision from Spring Coulee Wednesday evening in a regular league game at the local diamond. The wind was rather strong in the first two innings but after that the weather was perfect and the only discomfort was mosquitoes, who were there in almost overwhelming numbers.

Wes and Gilchrist did the pitching for Sp. Coulee and Raymond commenced slugging them from the very first man. Her retired in the third, but the slug pest went on and Raymond pounded out 15 safeties including 2 three bangers by Fred Kirkham and a 2 base hit each by McLean and Workman, the latter being stretched into a home run when the ball rolled under the cars and couldn't be found.

Alfred allowed six hits, struck out seven men and allowed 6 passes. Two passes were called in the eighth when the bases were loaded forcing in two runs and putting the Coulee one up. Raymond got in two however in their half of the eighth and held Sp. Coulee scoreless in the ninth to win 9-10.

John Barrus of Spring Coulee and Solon Low umpired the game.

Score by Innings	
Spring Coulee	000 104 040—9
Raymond	003 230 02x—10
Summary	R. H. E.
Spring Coulee	9 6 5
Raymond	10 15 7

DR. HEAL LEAVING

Raymond people will learn with regret of the departure of Dr. H. H. Heil who after about seven years in Raymond, with practice extending to Warner and Magrath, is leaving to locate in Vancouver.

During his stay here, Dr. Heil has made the acquaintance of a wide circle of friends, and has earned the respect of the entire community by his courtesy and friendliness in his business. We wish him well in his future practice.

Dr. Hall, who is taking over the practice of Dr. Heil is a native of Saskatchewan, and is a graduate of the University of Toronto, as well as a Dapinion Dental Council man. Before coming to Raymond, Dr. Hall spent some time practicing in a Toronto office.

We welcome Dr. Hall to our midst, and feel sure that his sojourn here will be pleasant to both he and the people of Raymond. We wish you success, Doctor.

WHEAT POOLS HELP

SOCIAL AS WELL AS ECONOMIC BENEFITS NOTED IN WEST

Social as well as economic stability has been created in the West as a result of the farmers establishing wheat pools, the Rev. Dr. W. E. Millson, of the Department of Evangelism, and Social Service of the United Church of Canada with headquarters at Saskatoon, told the members of the United Church Ministerial Association of London, Ont.

Dr. Millson said that from his own personal experience and close observation, the good effects of the wheat pools had been remarkable. The West's farmers were giving generous support to educational, cultural and religious interests, because their freedom from worry over economic problems have given them time to think about other than material needs. United Church news.

Raymond Second Ward Wins Stake Championship

Raymond had a fine representation at the finish of the M. I. A. Track Meet held at Magrath last Saturday, June 22, at 2 p. m.

Magrath athletes scored more points during the entire meet than for years, but there is still room for improvement, and there are numerous capable young people there who could take part in these events if they would only exert sufficient initiative and train properly.

A fine spirit of sportsmanship prevailed, and officials were quite satisfied with results.

Neither, Magrath nor Stirling had much chance of winning the Stake championship on account of the superior number of points scored and the large number of entries of the Raymond ward, so naturally the latter showed the best interest, and the championship stands between Raymond first and second wards.

The silver cup for the open relay event won June 1 by the Raymond team composed of Solon Low, Ken Stone, C. Peterson and Reed Kirkham was awarded by Norris Blair, all of Magrath, representing Magrath and Raymond A. A. A.'s, with a few appropriate remarks. This is an open event, and the cup will be competed for annually. Each winner was awarded a suitable silver-mounted medal engraved with their names.

The following is a list of events and winners in the order of merit:

Ladies' 100-yard dash—L. Galbraith Raymond second ward; E. Walker Raymond second ward; S. Wolsey, Magrath first ward; E. Lybbert, Raymond first ward.

JOLSON WINS in "SINGING FOOL"

When Al Jolson's first picture "The Jazz Singer," broke record all over the country; people said it would be impossible to equal it in glitter, glamour and heart appeal. The impossible has been done, for Warner Bros. now present Al Jolson in his second special picture, "The Singing Fool."

The world's greatest entertainer is seen in a part of tremendous and moving pathos and he proves that he has what his legions of followers have always insisted he possessed—the genius for tragedy.

The night clubs of the Big Town—the haunts and the home of the singing water whose heart-breaking humorous story, makes the play.

The original of C. Graham Baker's picturization is by Leslie S. Barrows. Lloyd Bacon directed and the star cast includes Betty Bronson, Josephine Dunn, Red Howes, Edward Martindel, Arthur Housman, David Lee and Robert Emmett O'Connor.

"The Singing Fool" with Al Jolson in the star part is an event. It is the most uniquely heart-stirring screen effort ever offered. Visit the Capitol Theatre next week.

G. H. Bowling, representing Miller and Richard, Type Founders, was at the Recorder Office this week.

Mayor and Mrs. Cope were Lethbridge visitors Wednesday. The Mayor was called in to attend shareholders' meeting of the Rexall Drug Co.

Tuesday evening the 1st ward Primary officers entertained at the home of Mrs. Hazel Price in honor of Mrs. Martha Mitchell who is leaving soon to make her home in Utah. Mrs. Mitchell has served most efficiently for several years as chairman and play-leader and will be greatly missed. The evening was spent playing contest games after which a delicious lunch was served. The Primary Stake Board were also guests.

ches; Henry Searle, Magrath first ward; K. Burrows, Raymond.

Junior relay—Raymond second ward; Raymond first ward.

Senior mile race—Cliff Scoville Raymond second ward; W. Van Orman, Raymond first ward; K. Stone, Raymond first ward; H. Fromm Raymond second ward.

Junior half mile race—G. Snow, Raymond second ward; S. King, Raymond second ward; A. Stone Raymond first ward; R. Meldrum, Raymond second ward.

Junior high jump—B. Galbraith, Raymond second ward; B. Card, Raymond first ward; F. Fowler, Magrath second ward.

Senior broad jump—H. Walker, Raymond second ward; 18 feet eight inches; L. Hansen C. Peterson, W. Van Orman all of Raymond.

Senior relay—Raymond first ward; Raymond second ward.

Scott time race six minutes—Magrath first ward, time six minutes two seconds; Magrath second ward; Raymond second ward; Raymond first ward.

Senior high jump—D. Nelson, Raymond, five feet two inches; B. Galbraith, C. Peterson.

Ladies' relay—Raymond second ward, Magrath first ward, and Raymond first ward.

A baseball game between Raymond and Magrath completed the events, the game going to Raymond with a score of 12-7 in their favor. It was a good game full of interest, and proved a fitting climax to the day's activities.

The final tally of points for the meet is as follows:

Raymond Second	210
Raymond First	175
Stirling	81
Magrath First	66
Magrath Second	28

DOMINION DAY

Today we celebrate Canada's birthday. It is a day which since the birth of the Dominion, when the two provinces of Ontario and Quebec and the two provinces of the West and the Northwest Territories, the Dominion of Canada, has been made every year a day of national celebration. The gradual movement westward settling western Ontario, Manitoba, the Territories, the spanning of the continent and growth of British Columbia by rail, the peopling of the savage Redmen and making frontier life safe, have all been points in history of which every Canadian may well be proud. Today, because of the foresight and good judgment of the Fathers of Confederation, we stand one of the brightest gems of Britain's overseas Empires. United in spirit and purpose, divided only by name and for convenience in government Canada is marching rapidly forward in development in every line.

A country rich in natural resources water power, lumber, soil which produces the finest wheat in the world, climate that breeds stability, self reliance, and industry what else could we ask of our Dominion.

Great as has been our past, great or still will be the future so long as we build for permanency and keep the spirit of progress ever to the fore. And so long as we feel to say, "Breathe there a man with soul so dead, who never to himself hath said, This is my own my Native land," just so long will Canada continue to grow, prosper and wax strong and bright as the brightest link in England's Empire Chain.

RAYMOND MOTORS

The new building being erected by O. H. Snow just south of the Rex Barber Shop, will make a splendid addition to the business section of the town.

Besides the garage, part of it will be occupied by a Restaurant and a Barber Shop, with an office on the north east corner for the garage. The remainder of the building will be utilized as a repair shop and floor room for the garage proper.

The building at present will only be one story, but so constructed that another floor can be laid whenever desired.

A large lot at the rear of the building will be fenced in with a high fence for the purpose of temporary storage and repairs on tractors, large trucks, etc. that may be too large for the repair room proper.

The construction will be cement, brick and tile, and T. K. Roberts is in charge of the work.

Mr. Snow and those associated with him are to be congratulated for their enterprise in making such a nice improvement to our business section.

This was Raymond's week at the Temple in Cardston. One hundred and twenty-five were there from the second Ward and a good showing from the 1st Ward.

Bishop Heber H. Allen and party returned from their holiday trip to Salt Lake and other Utah points on Sunday evening. They visited Glacier National Park on their return.

MRS. SONAMURA BURIED

Funeral services over the remains of Mrs. Sonamura, who died Monday morning, were held in the Second Ward Chapel on Tuesday. Bishop J. H. Walker presiding and Councillor L. L. Palmer conducting.

The choir sang, "That Beautiful Land", "Come Unto Jesus" and "Abide With Me." and Ira McBride rendered a vocal solo.

The speakers were Y. Oyama who gave a Christian Message to the Japanese. Paul Nakamura and Y. Hat-anaka who offered words of comfort and consolation to the bereaved. H. K. Iwassa who praised the beautiful life of the deceased, and Bishop Walker, who praised the Japanese people for their honesty and integrity.

Interment was made in the local cemetery.

News Notes

This warm weather is excellent for the growing crops of all kinds. There is still ample moisture.

Wilford Heninger was in town on Thursday with a sample of spring wheat which measured 22 inches in height. This was taken out of a 200 acre field.

When a 30 foot scaffold fell at Judson siding, Harry Colen, foreman and Carl Pach, were thrown heavily to the ground. Colen had a badly fractured and crushed foot and body bruises as well as a back injury, while Pach escaped with numerous bruises and skin abrasions. They were given medical treatment here and were then sent into Lethbridge.

NOTICE

At the request of Mrs. T. M. Carlson the U. F. W. A. Meeting has been postponed until July 11th.

HEALTH SERVICE of the CANADIAN MEDICAL ASSOCIATION

"WHERE THERE IS DIRT THERE IS DANGER"

The title for this article is the slogan which is used by an English health agency called the Health and Cleanliness Council. The difficulty with such slogans is that while they are catchy and are easily fixed in the mind they very often contain a half-going to say a word against the teaching of cleanliness. A clean body, a clean house and a clean town are all very desirable. Most people like clean things and are repulsed by dirt. When we are told that dirt is dangerous, it is worth our while considering what is meant, and how true it is.

Our readers will remember that disease germs leave the sick person in the secretions from his body and that as long as the secretions continue to be moist and to be protected from the sun's rays the germs remain alive. We refer to this fact because it is upon our understanding of it that we are brought to realize the danger of dirt. Dirt which is soiled by human or animal secretions is dangerous because of the likelihood that it contains disease germs.

Disease germs, in order to cause disease, must gain entrance to our bodies. They cannot get in through the unbroken skin. The mouth is the door through which most of them enter. The truth is that most germs enter our bodies because we either eat them or drink them. If dirt soiled by secretions gets on our food, in the milk we use, or on our hands, and if with our dirty hands we touch food which goes into the mouth we have taken into our bodies the germs of disease.

All dirt is not contaminated, but because we cannot tell by looking at it whether it has or not, we should, to be on the safe side, consider all dirt dangerous. We can protect ourselves from the dangers of dirt by keeping it out of food and drink and above all, by keeping our hands away from our faces and by thoroughly washing the hands before eating.

Welling News

(From our own correspondent)

Most of the beets are thinned and the grain and beets are looking fine. Many people from here attended the baseball game and dance in Raymond, Wednesday June 19th.

Harold Evansen of Taber was a visitor here Wednesday. He motored over in his new Nash Coupe.

A quiet wedding was performed in the Alberta Temple last Wednesday night when James Thomson and Ellen Smith were united in marriage. After a honeymoon spent in Waterton and Glacier Parks Mr. and Mrs. Thomson will reside in Welling. They were accompanied on their honeymoon by Mr. and Mrs. Henry Thomson.

Those who went to Cardston on the special excursion were Mrs. J. H. Heninger and Mr. and Mrs. J. H. Wilde and son Robert.

Percy Perrell was a business visitor in Welling Thursday evening.

Mr. Anderson and his road gang are now working on the road between Welling and Raymond. Eldred Foote and his gang are grading the road going to the Welling elevators.

No Primary was held Friday afternoon on account of grade nine writing examinations.

Those from here who attended the M. I. A. Truck Meet in Magrath Saturday were Claude Peterson, LeRoy Peterson, Glen Bullock and LeRoy Peterson. Claude took part in several events. A number of others came up to the dance but there was no dance on account of the rain.

Mr. and Mrs. George Rasmussen and family were guests of N. W. Peterson and family Sunday.

Grade eight pupils commenced their examinations Monday. Those writing are Gladys Peterson and Iona Wulfin.

A committee meeting was held Sunday morning at 9 o'clock to select a site for the new church-house. It will be built just south of the school house on the lot now owned by George Bullock. Those on the committee are: Bishop Floyd Wilde, Eldred Foote, Sheridan Schumers, David Bullock, N. W. Peterson, Jesse Wilde, Alma Bullock and Arthur Wilde.

New style bucket seats for first class coaches on Canadian Pacific day fast trains have been introduced on regular trains of the company and are proving very popular. The seats are upholstered in a cool moquette material and are provided on their backs with coat rail, umbrella stand and check holder for the convenience of passengers.

The stock recently visited Canadian Pacific train No. 51 between Banff and Saskatoon and left a daughter to Mrs. Mary Alexander on her way with her husband to settle on a farm near Edmonton. Miss Dinning, government employee of the immigration department at Quebec, was on the train. She secured a first aid kit from the conductor and took charge of the case. Mother and daughter are going well.

Sixth annual trail ride in the Canadian Rockies will start from Banff August 1, and end a few days later at Castle Mountain Bungalow Camp. Seven glacier-fed lakes are on the route which will form half of the long desired High Line trail from Banff to Lake Louise. The second half will also skirt several glacial lakes. About August 8 the long distance trail ride from Lake Louise to the Columbia Icefield will make a start. This icefield covers the largest and most spectacular body of ice left on the North American continent surrounded by peaks as high as 12,000 feet. The second trail ride will take nearly three weeks.

The only golf trophy offered on the continent of America by His Royal Highness, the Prince of Wales Cup, presented to the Banff Springs Golf Club for annual competition by bona fide amateurs on the course there, will be among the outstanding prizes of golfdom when members of the "Canadian Golfer" tour special train which is crossing Canada from Toronto to Victoria and back this summer, arrive at Banff early in September.

Scotland and Glasgow are proud of Canada for the part she is playing in trans-Atlantic shipping. T. L. Duff, well-known shipowner and broker, when interviewed at Banff recently, "The building of a ship directly employs about 5,000 craftsmen on the Clyde," he added. "and the supplying of the materials and fittings required in construction indirectly benefits industries throughout Scotland." Mr. Duff said that vessels built at shipyards had done so much for Scotland's shipbuilding industry as Canadian, the foundation having been of Scottish descent and to many of the ships of Scottish construction.

During the past five months all milk production records at Strathmore farm have been broken. Strathmore Sylvia in the mature class by producing 23,371 pounds of milk moved the mature class record up 4,821 pounds. In the four-year-old class Strathmore Texaline Sylvia exceeded the former farm record by 3,115 pounds with a production of 23,530 pounds. Strathmore Lassie Sylvia, in the three-year-old class, halved on February 22nd, 1929, with 23,500 pounds of milk, or 3,528 pounds more than the former record. To Francey, in the two-year-old class, however, belongs the premier honor—she broke the farm record of 5,315 pounds. Although only a two-year-old when placed on test, she produced 22,922 pounds of milk, which was sold to the Union Milk Company for \$564.65. Her calf, now one year old, is priced at \$400.

The meeting Sunday was in charge of the Genealogy committee. Bro. Paul Tanner of Magrath was a speaker. Miss Myrtle Schumers had the misfortune to step on a pitchfork Monday evening. She is unable to walk on her feet at the present.

Noxious Weeds:

Are especially in fields and roadsides, and along roadsides. They are a great pest to the farmer. They are a great pest to the farmer. They are a great pest to the farmer.

The first week in July has been designated as
WEED WEEK
and a special campaign against weeds is being conducted.

Watch for articles, in the press and see advertisements of meetings and radio addresses.

CARNIVAL SHOW HERE

The Byrne and Baddley Carnival Shows which were here on Tuesday and Wednesday of this week, offered a variety of clean fun and amusement for young and old.

As is usual the merry-go-round was the big attraction for the children and round and round the children went with broad smiles of joy and contentment on their little faces, and never ready to get off. cries of distress and wails of anguish piercing the air when father or mother finally decided it was enough.

There were the usual run of chance games and the usual patronage. We never get so old or so wise that the element of chance doesn't appeal to us and the chance even if it is a very slim one of getting something for nothing always makes its appeal. The shooting gallery ring throwing booth, guessing booth fortune-teller and all the rest all made them bid for the coin.

All in all the show was fair and square in that all promises were fulfilled as to prizes etc.

The managers, Messrs. Byrne and Baddley are making a real endeavor to remove the bad name that is usually associated with Carnivals and to make their show welcome everywhere.

They will be at Coultas and Sweetgrass for the big time there from July 1 to 4.

Here and There

Music hath charms to soothe the savage breast, and Jean has now exercised its well-known effect on animals, since the deer at Banff have been listening to the music strains from the orchestra of the Banff Springs Hotel. There were seen the other night listening with astonished ears to the symphony within. Both deer and elk are unusually tame this season and guests are going hunting with cameras in lieu of firearms.

Aviation is coming into its own in Canada and Canadian air is coming (thoroughly deserved) Three airports were opened July 1 in June at Ottawa, Kingston, and Hamilton, at which a great number of planes took place and large crowds witnessed the proceedings. Many took advantage of the opportunity to send mail and parcels by air express. The Canadian Express Company used the planes to advantage.

Richard Barthelmess, movie picture star, accompanied by his wife, made a three-day honeymoon stay at Banff Springs Hotel, July 1 to 3. He says he will be back in June. He says he will be back in June. He says he will be back in June.

Rock dues on parcels from Charlebourg are now lifted under an order from the French Government and there will be consequently a great increase in despatch of these parcels from France to Canada, according to word recently received by the Canadian Pacific Express Company. Prior to this, parcels from France had to be shipped from Southampton, causing a loss of a couple of days' time in reaching Canada.

Loans to harbor boards totaling nearly \$30,000,000 to be spent on programmes of extension and development have been approved by the House of Commons. Of this amount, ten millions each was to Montreal and Vancouver. \$5,000,000 for Halifax, and \$5,000,000 for Three Rivers and Chateaufort, Quebec.

The average cash income per farm house in the Prairie Provinces was \$2,544, exclusive of the value of seed, feed, meat, vegetables and other commodities produced and retained by the farmer for his own use, according to the "New West Farmer," Canadian farm journal published at Winnipeg.

The younger generation, we are often told, is apt to be left to find its own way around these days, but not quite to the extent of the woman who left her 7-months old baby asleep in the Windsor Street Station, Montreal, while she went shopping in the city. It was taken to the ladies' waiting room and cared for. Several hours later the mother returned and was told of the whereabouts. It was still sleeping and she decided to have her supper before she "disturbed" it.

Wheat from the Prairie Provinces of Canada is the finest raised in the world, according to Johann Lange, one of the seven German millers making a tour of the North American wheat-growing and milling centres. "Canadian mills are second to none, if mills visited in Winnipeg may be accepted as representative of Canadian plants," said Mr. Lange. "In operation, cleanliness and the beauty of the flour turned out we have seen nothing better since we arrived in this continent."

FOR SALE—5 acre lot. The best in Raymond. Apply Recorder Office.

HELP WANTED—The Rentville Hosiery Mills require a resident part-time or full time representative. Write Branch Manager, 8 Wells Block, Calgary.

SALESMANSHIP

Two commercial travellers were bragging about the wonderful sales they had made that day. One had sold \$2,000 worth of goods. The other said "I did better than that, I took in thirty-five hundred dollars." A few sitting in the next seat looked at them with a big smile and said, "My friends you mean you took orders for that much and that's not salesmanship. I'll tell you what salesmanship is: This morning a lady came to my store and said she wanted a suit of clothes to bury her husband who had just died. Well my dear lady, surely you are not going to bury your good husband in a twenty dollar suit" said I. "Come with me I'll show you some good clothes. I took her to our high-class goods, and before she left I had sold her a \$75.00 suit with two pairs of pants. That's salesmanship."

DRIVERS WARNED OF DANGERS DUE TO HITCHHIKERS

All over the country, war is being declared on "hitchhickers" or "ride beggars." The feeling among our clubs is that this is something that must be stamped out and the sooner the better.

The season is now about to open for these "thumb tourists" so motorists are urged to be on their guard, no matter how sympathetic they may feel to the roadside applicant. It is from all standpoints a pernicious practice, fraught with grave dangers to the car owners who has nothing as to the identity of the stranger.

Officials of the Alberta Motor Association have on numerous occasions sounded a warning as to this "picking up" practice which, no doubt, is just as common in this province as in other parts of the country. Too often, owners of cars have found themselves looking as calmly as possible into the barrel of a revolver, or finding it necessary to lose no time in turning the car over to the mercies of the stranger.

Genuine cases in which lifts would no doubt be justified, doubtless are discovered from time to time. But the fact that grave dangers are risked in a large number of cases makes it imperative that car owners be urged to utilize the space in their machines for themselves their families or their friends.
